

ResponseCard **RF**

RF (Radio Frequency) is our most popular ResponseCard. ResponseCard® Radio Frequency (RF) keypad is optimised for small, medium and large presentation environments.

Specifications

Enclosure

- ▶ Lightweight, compact, grey "credit card" format.
- ▶ Dimensions: L 8.4cm x W 5.3cm x D 0.76cm.
- ▶ Weight: 28g (with batteries).
- ▶ Durable, rugged case ensures maximum longevity under extreme conditions.

User Input

- ▶ 12 key (1(A) - 10(J), Ch, ?).
- ▶ Answer Key - answer transmitted automatically.

Display

Participants receive answer confirmation on their ResponseCard through two-way communication. Successful transmissions are acknowledged on the participant's keypad via a three second long visual green light signal.

Power & Power Management

- ▶ Powered by two coin cell CR2032 (3.0V) Lithium Batteries.
- ▶ Always in deep sleep mode - only uses power when a button is pressed.
- ▶ Average battery life is 12 months.

RF Technology

- ▶ Available Channels: Up to 82 sessions can be running at one time in close proximity without interference.
- ▶ Fully FCC, CE and Industry Canada certified.
- ▶ Will not interfere with other technologies.

- ▶ The most reliable and scalable offering available.
- ▶ Not limited to line-of-sight transmission.

Range

- ▶ 60m range (120m coverage) with either an RF Receiver or a ResponseCard AnyWhere receiver.
- ▶ 120m range (240m coverage) with a Long-Range Receiver.

Receiver Compatibility

ResponseCard RF keypads are compatible with the following ResponseCard receivers:

- ▶ Standard RF Receiver
- ▶ Long-range RF Receiver
- ▶ ResponseCard Anywhere
