

RF USB Receiver

Our state-of-the-art, "plug & play" USB RF receiver makes setup simple. No driver installation allows for easy implementation. The radio frequency technology allows for a 60 metre range (120 metre coverage) and does not need a "line of sight" with the ResponseCard keypads.

Specifications

Enclosure

- ▶ Dimensions: 9.4cm L x 2.8cm W x 1.1cm D
- ▶ Unit Weight: 30g

Display
